To whom it may concern:

We have been paying a fuel tax and our DMV fees for years and the money was put into the general fund when it was supposed to be used to maintain the roads. Then the state "passes SB1" behind our backs and now the county wants more money to maintain our roads and make improvements. I strongly suggest we go get the needed money from the state's rainy day fund.

Respectfully,

TSgt (R) Jonathan Dowdy

EXTERNAL EMAIL: If unknown sender, do not click links/attachments.

Our roads are in dire need of repair: However, we keep paying more and more and getting less and less as far as road maintenance. We are paying for a substantial gas tax increase but very little, if any, seems to go to local road repairs. For this reason, I am opposed to another tax increase unless 100% of it goes to local road maintenance.

I live in Rancho Murieta. Our primary route to Folsom is via Scott Road. Although heavily traveled, it is in horrible condition but repairs and improvements don't seem to be on the agenda. Until it is, I cannot support yet another tax increase.

looking at the way Sacramento County manages is street repair in my area, I would not recommend putting any more money in their pockets because it too will be miss-managed. Seriously, they won't even consider a seal coat for our streets. My car is very angry with me because of the bad streets, as a constituent, I am unable to do anything about. No more money until the residential roads are properly maintained.

I live in the Orangevale area and fail to see the need to increase any tax on the citizens of this or any County. Heck, we Californians pay the highest taxes in the nation except maybe for New York. Our California elected officials are way out of control with their tax and spend policies without thinking about how us citizens can pay more. It's insane and all who support such a plan should be recalled from office.

I am totally against the proposed ballot initiative.

The prime reason is simply that government costs too much. Taxes are killing us. This is just another burden for the tax payers to pay. All other initiatives just seem to have gone nowhere other than to ineffective schemes or to pay for public sector pensions.

The goals of the plan further do not fix roads. As a business running services we do not and cannot rely on public transport. This does not help us.

Fix roads by reallocating resources from elsewhere.

I strongly appose yet another sales tax increase in Sacramento County, especially to fix roads. There is already money targeted to do this and our roads are horrible. You spend money on patching potholes all over and have to come back and repatch them...what a inefficient way to fix the roads. Also...what is up with having a Street Sweeper on rural roads...are you kidding me? There are no sidewalks or curb debris to clean and there are street sweepers...a total waste of money and probably someones relative has a big fat contract.

Your folks should be embarrassed to ask for yet even more \$.

Although I certainly agree that certain roads do need repairing, I am not in favor of a sales tax increase to fund this endeavor. Gas taxes were enough to maintain them until electric vehicles started using the roads without paying those taxes. I am very much in favor of clearing the air by folks driving electric vehicles however they do wear on the roads at the same rate as vehicles powered by fossil fuels (maybe more as they are generally heavier). Perhaps it's time to explore alternatives to have them pay the funding shortfall for road repair. Finally, it makes no sense to increase sales tax to fund road repairs as there is no correlation between road use and purchase of taxable personal property.

Thanks for listening ... Tony

As a resident of this county, I strongly oppose STA 3-18-20 Item #4. California state, city and county governments are constantly raising taxes and we rarely see the proposed outcome for the money we pay into the governments. I'd rather see the existing funds used more efficiently before increasing the tax burden on citizens. At some point, more people will be leaving the state if we continue to increase taxes.

Please – **no on sales tax increase !!!**

Regarding public transportation:

I have ridden the light rail system enough to notice how much revenue is lost by not checking tickets. Plus, I think that the ridership could be improved by instituting personal standards of dress and behavior. At least once during each trip to downtown I find myself uncomfortable by a single rider who is spouting off obscenities or who hasn't had a bath in a month. I am fine going to downtown on business as a single rider, but exposing my family to the experience as things currently are now... no way. Therefore, a trip to Golden One **automatically** is a car trip.

All I'm saying is that you need to

1. Institute some common sense rules and expectations on dress and behavior.
2. Collect all possible fees that are due. So many riders get on and off without being checked for a ticket. I'm appalled by this practice.
3. The surfaces are germ farms. Disinfection needs to be often and ever-present.

Please take care of what you have within your current means.

STA,

We pay close to the highest taxes in the country (state sales, highway-fuel-property-you name it). The hard working citizens of this state do not need a 1/2 cent sales tax increase to add to their burden. The Sacramento Transportation Authority needs to manage their budget and allow the money that was promised to go to road & bridge repair to go to ROAD & BRIDGE repairs.

If you want moneys for public transit, make it clear you want \$\$\$ for public transit. First, fix our roads and bridges and then use public transportation monies for the other.

Promises made to be promises kept!!!

Thanks,

I don't want any more taxes. Sales or otherwise! California is out of its mind when it comes to taxes. When Reagan was governor. He left the state in the blue. That is why he was so popular. The politicians haven't learned that. It's also why Trump is liked by so many.

I feel the public sector has voiced their option about taxing the people to death by the outpouring of NO votes and the "13" proposal that just failed. I vote NO to any new taxes to the public transportation issue until transparency within the organization is made completely clear to the public. No more hiding money destinations under wording, complete all necessary cuts in all non essential spending and correct all "fat" divisions by removing extra personnel even at the top. Complete an investigation into the operations of the department to provide the public with truths and an understanding of what the transportation division wants and why they feel it's needed.

We are NOT at the best of times these days. It's time for government to tighten its belts just as the public must do every day. And most of all, if these leaders are not capable of operating the system with the capital it has, It's time for them to find another avenue for their wealth.

I am writing to oppose the proposed half cents sales tax increase. I advocate for fixing our roads but this tax increase has 40% of funds going towards public transportation which has a very, very low usage. A tax increase to benefit such a small percentage of the population is a ridiculous proposal. We Californians already pay enough taxes (we pay the highest gas tax in the nation and there's still been no improvements to any of our roads) and a tax increase is not a viable solution. Spend your monies more wisely. We all have to live within our means and budget - why can't you do the same?

No more taxes please, especially for we who live in Rancho Murieta, seniors who don't go far from here, and traffic gets worse every year on Jackson Hwy.! Scott Rd is how we get to Folsom, our "big city", and it has constant pot holes! I had to buy 4 new tires 3 weeks ago after getting a flat tire in my garage. Went to the Honda dealer after AAA changed flat to spare. All 4 tires had chunks of rubber out of them, nothing else. It's rediculous!

Dear STA Board,

I just got done reading your sales tax increase proposal for Sacramento County. Although my business is in El Dorado County, I live in Fair Oaks in Sacramento County.

I am against the tax increase. I think that you should manage the money you currently are allotted more wisely. I do not think putting a large portion of the budget into public transportation is wise. Very few of the people paying the taxes ever use public transportation. Let the people who use it pay their own way.

I am in Real Estate and I would enjoy better roads. I have had several issues relating to poor road conditions and the damage that they have caused to my vehicle. Also the HOV lane does not make sense to me. Why not have a fast lane, a medium speed lane, and a slow or exiting soon lane. That way the entire freeway is used and used more efficiently. I have no commute option to take another person along and it is irritating to see the HOV lane half used when the other two lanes are bumper to bumper.

Respectfully, ☺

Rick

NO NO NO, the county already get a sufficient amount of money. It is How it is Spent is the problem. As a former Welfare Eligibility Worker and Supervisor I saw first hand the perfectly capable people returning month after month to collect benefits. I am sue that happens in some form throughout the various departments. It's time able bodied people get toe work, that lose the "Poor Them" attitude and focus on successful productive lives. Like wise Illegal's are just that illegal, they should immigrate as my Grandmother, Grandfather, Spouse and Mother-in-law did. They need to understand that if things aren't great in their country, take action, Overthrow corrupt regimes. Do what our forefathers did in creating this country. Lastly, reduce the support for Museums, Arts and other nice to have organizations and entities.

And a an aside, I'm not a fan of this \$1K per person thing with the FEDS, delaying tax filing (dang you told to sit at home, Do your Taxes).

I am no stepping down from my soapbox. Good to have a great lady representing the people of his district.

Vote no on this sales tax. Us senior citizens are being taxed too much already with the gas tax that only survived the repeal because the attorney general switched the first two paragraphs of the proposition before putting it on the ballot to scare the voters into voting no. I got a 1.6% increase in COLA in January and the costs of groceries, etc went up 10% or more. Enough! No more taxes! Plus the roads have gotten worse since the gas tax passed.

A public sales tax for the Sacramento Transportation Authority is another waste of money in a county where the roads are falling apart and ruining the cars. People want roads that are efficient and will get them to work and back home in a reasonable amount of time and roads that will get them to the many recreation areas in the area both within and outside of Sacramento County.

Past history shows that public transportation is a waste. It is okay for people who can ride it to their work and back but it doesn't work for those who don't live near it or work near it. I am an example of the uselessness of public transportation. Light Rail never worked for me as I never worked or lived by a Light Rail Station or a bus route. On the few times that I thought I might drive to the station and ride to downtown Sacramento it was during the times when the only people who were riding were people who assumed the train was free, urinating on the seats, and assaulting people on the train was okay. I was shocked the one time I rode Light Rail.

I have ridden train systems in Japan, London, Paris and many other countries plus others in Washington, D.C., Boston, and other cities in this country. All of these systems are built so no one gets on or gets off the train without a ticket. It is impossible to ride free. In California it is okay to cheat, steal, urinate in public and do almost anything you want. There are no consequences for people who ride public transit without a ticket other than putting them off at the next stop so they can get the next train.

You need to use the money you have to correct the problems before spending millions of new tax money on public transportation.

Our taxes are so outrageous because we give everything to those who won't work, are illegal and otherwise indigent. Why not use what you have and live within your budget. I implore you to throw this proposal out.

Sincerely,
Bev Hendrickson
Folsom, California

Although I think our roads are over crowded and in need of repair I thought the recent increase in gas tax was supposed to help this situation. So at this time I am against the half cent sales tax increase.

I do not know what developers responsibilities are when they build new housing and retail in an area where the the infrastructure is inadequate but it seems to me they should have financial responsibility in approving that infrastructure.

NO sales tax increase.

Public transportation needs to be reviewed before voting on a spending plan. Find the routes/ridership that are cost effective.

Fixing roads that have dangerous and costly potholes need a larger percent of spending to maintain safety.

I do not support a sales tax increase for fixing the roads. The proposal I just read directs approximately 40% to public transportation. Please quit misleading people and do what you have said you would. Support and encourage the Governor to actually put the money voters passed towards the road system. Quit trying to get more money. We simply cant afford it anymore.

I am opposed to an additional one-half cent sales tax for transportation purposes. I live in Rio Linda where our roads are horrendous, as is all of California, however I am not inclined to provide any more funds for any transportation needs until the monies we are already taxed by the county and state are used for the purposes we were told they were for. In addition, when road improvements are scheduled within Sacramento County the unincorporated areas (where I live) never seem to be on those schedules. Until my paid taxes are proven to be used to take care of problems in my area, I am reluctant to provide more funds that will ultimately be used elsewhere.

I cannot believe that you would even consider a sales tax increase, especially at a dire time such as we are going through now! People are worried about losing their jobs, being told they must hunker down in their houses, cannot even go to church, and not even being able to go to a grocery store to purchase toilet paper! It is really selfish of you to want to add to peoples troubles by tacking more to a sales tax that is already one of the highest in the nation! If you are asking the citizens of CA to live within their means, then you should too! NO ON THE SALES TAX INCREASE!

I have been a resident of Fair Oaks for over 30 years. The roads in this part of the county are hazardous and quite frankly, embarrassing. Basic infrastructure is one of the primary missions of local government. With respect to maintaining roads DOT ranks their condition in this part of the county as poor to very poor. When it rains, we have to literally dodge chunks of asphalt and massive potholes. There is only one word to describe the present situation—shameful. Moreover, this joint task force is poised to adopt a plan that does not adequately address basic infrastructure. Aspirational policy making which emphasizes far off goals at the expense of the present safety of the county's residents makes little sense when the current conditions are so obviously in need of immediate attention. In other words, a little common sense is in order. Reject the proposed plan until it is adjusted to make basic infrastructure maintenance and repair the top priority.

Thank you,

John Briggs

I don't like how the monies are distributed. Citrus Heights has seen little benefit from the Light Rail. I would rather pay at the city level to get our roads fixed. I know that there are unincorporated areas that will need monies at the County level. When I look at the expenses, Elk Grove and the City of Sacramento are the biggest benefactors.

Also 40 years? Does it take that long to fix the roads? As a responsible homeowner, I would never commit to that period of time. In the past, we have voted for monies to be spent on various things such as schools, water, roads, etc. Then we see it wasted in committees and lawsuits with no real progress being made.

If you want people off the roads, maybe telecommuting and telemedicine and on light educational services should be enhanced. Doesn't the county and cities and schools have their own fiber optic networks that could be utilized?

I would vote no on this tax increase.

Please vote no on the on the proposal for the half cent sales tax increase in Sacramento County to fund transportation. We, the middle class already pay way too much in taxes as it stands. And en light of the CornaVirus, there is so much uncertainly in trying to provide for a family when your're unsure whether you will be employed or not, increasing the costs of our taxable goods is just adding stress and undue burden to almost everyone. At this point, a no vote is the only viable option.

Sincerely,
Kris Higgs

I am definitely against the proposed half cent tax increase that is supposedly going to go towards the repair of our roads. I don't understand why all of the tax's that are already in place to supposedly there to repair the roads aren't being used to that. We are already severely over taxed with taxes that aren't being used for what they are in place for and this one would just add to that .

As a long-time resident of Sacramento County, since 1985, we are totally against this suggested tax increase to fix our roads, etc. We have been taxed mercilessly as residents of California; and from what I've read, we do not need MORE taxes to fix roads. There is enough money that can be used for these purposes and the repairs should be done with the money that is already in the budget.

Especially with the current national situation going on, this is definitely NO TIME to be increasing taxes for Sacramento County residents. Until we see how this all pans out, more taxes is not the answer we are looking for, especially at this time!

Please vote NO on this proposition.

Kind regards,

Molly Matchell

EXTERNAL EMAIL: If unknown sender, do not click links/attachments.

As a taxpayer I want to have my money spent for the benefit of all taxpayers. I attend most of Supervisor Sue Frosts community meetings. Every meeting I hear another taxpayer asking why they must drive to work on crumbling roadways. Sue Frost took the time to create a matrix showing exactly where our current gas and transportation tax revenues are being spent. It was detailed, very confusing and eye opening. Very little of our current tax revenue is allocated to maintain our roadways. I have to pay twelve cents a gallon at the gas pump, I have to pay sales tax, I have to pay property tax. Still as I drive to work each morning the roadways are crumbling all around the county. I cannot afford one more tax that will be allocated for anything other than fixing our maintenance deferred roadways. Since 40% of this tax is once again allocated for uses other than maintaining our roadways, I am strongly against this tax being considered.

Thank You,
Kristen Porter

No increase in taxes! We need people to figure out ways to do more with less. Let's optimize what we have!
Stop the cycle of spend, spend and increase taxes.

It's really not hard. You look at your check book, you want to do xx, figure out how to save the extra money you need, once you have enough then execute.

Stop the cycle of increased taxes. We can no longer afford it.

No more transportation taxes - with the current proposal almost 40% of the funds would go towards public transportation which is not representative of the ridership within the county.

Let's figure out how to do more with all the taxes we already have and ensure they are being allocated to what they were intended for to begin with.

Subject: Half Cent Sales Tax Proposal

Since we are unable to attend the meeting tomorrow, I wish to express my opinion on the proposed 1/2 cent sales tax increase.

In its current form, I will be voting against this increase as will those family members I communicate with. While I understand the need to fund various transportation related functions, the need to fix our roads is just to great at this time. I will only vote for a sales tax increase if at least 70% of the funds are directed only to road pavement maintenance and new roads such as the connector.

I am not in favor of any of these tax monies going to the 5 off the top programs. A separate tax measure can be requested for those needs.

I am not in favor of any funds being used for bridges or intersection improvements or anything for what is called "Complete Streets". There is existing transportation funding for those issues.

I will support some funds for Regional Transit improvements.

I am tired of continually paying for road improvements and not seeing results. The funds get used in areas that do NOT fix the pavement. It is time to fix the pavement. I am not going to stop driving my cars, it is impractical for me to only use public transportation or a bicycle.

FIX THE PAVEMENT. That I will vote for.

I don't think any monies should go to the San Joaquin Rail Commission. While enhancements might benefit Sacramento County residents, it's unclear to how much benefit and why should Sacramento County support a work force leaving our area. We need more employment here and not subsidize it in other areas, arguably more fiscally able to support this effort. Use some of Brown's bullet train money for that expenditure. I, for one, will always try to use a car over a bus or regional transit solution. When I can get somewhere in minutes by car that takes hours by bus/train, the choice is easy. Plus, as a disabled senior citizen, I have to walk about 1/2 mile to get to my closest bus stop. I am unable to consistently do this health wise and the streets I need to walk to the bus do not have sidewalks and are poorly paved, putting me at risk vis-a-vis passing vehicles.

Respectfully,
Robert Reisig

EXTERNAL EMAIL: If unknown sender, do not click links/attachments.

To whom it may concern,

I am not in favor of any additional taxes imposed on Sacramento residents that are earmarked toward roadway repairs. 40% of the proposed sales tax increase is scheduled for public transportation. Public transportation just doesn't meet the needs of county residents.

Californian residents have previously approved a substantial tax increase to include gas as well as automobile registration that was sold to improve our residential roadways. Sacramento County has proven that the County is unwilling to make road improvements and directs funding to projects that just don't meet the needs of the majority of residents. I am a commuter, driving Watt Avenue from Elk Grove Road to I-80 daily. That portion of highway is in poor condition and is in need of repair. I am concerned that Sacramento County just will not reap any roadway repairs from the previous Governor's promises.

Therefore, I plead to all of you to not allow any additional taxes on our hard working citizens for promises that just cannot be met.

I, for one, will not approve any additional taxes imposed on Sacramento residents for unkept promises.

Thank you for your consideration.

Respectfully,

Paul Koscheka

Increasing taxes to pay for things for which taxes have already been assessed and squandering tax payer's hard-earned money for politician's boondoggles and ineffective social engineering programs is a not-to-subtle form of theft. Californians already pay the highest taxes in the nation and the highest auto fees. It is harboring on the criminal to ask us to pay more: especially those of us who are on limited incomes. Sufficient taxes have already been collected for appropriate transportation infrastructure, but politicians have diverted much of the money to other questionable programs, and the bullet train is a political boondoggle that should never have been funded.

It is my hope that the electorate will finally have had "enough" and will vote out the liberals who think they know better what to do with our money than we do. Even the socioeconomic subgroups that benefit most from their programs are eventually going to see that "the emperor has no clothes" and vote for fiscally responsible candidates.

To Whom It May Concern:

I am opposed to the idea of raising taxes to pay for transportation improvements that, in reality, will never take place. Money approved by voters on a statewide level to fix our roads, bridges and highways has been diverted to other areas of the state General Fund for any and all purposes not related to transportation. Although I have not looked at the exact language of Item #4, I have no doubt it has been written in a way where a slim majority of the Board of Supervisors can vote to shift this new pot of money out of transportation into any area of their choosing.

I am a taxpayer in Carmichael that works in the construction industry. Specifically road construction. I have no problem backing a small, targeted and temporary tax increase to do what the State and County have FAILED to do for years, despite myriad promises to do so- maintain our infrastructure. However, I absolutely do not support the inane policies and further public subsidies for mass transit. Mass transit is a failed pipe dream and I will not support furthering the policies.

Please do not support this tax measure unless the guarantees for mass transit are stricken from the text. We need ALL the funding we can get to repair decades of neglect to our roads, and monies to keep the roads from falling back into disrepair. And, as an aside I would direct the BOS to try and recoup some repair funds from the telecommunications and sewer/water contractors that failed to properly complete the work they were paid to do. A great deal of the road issues are due to shoddy compaction and paving of projects under the direct supervision of the County. These contractors owe the taxpayers for their awful performances. Go after their bonds.

Thank you.

There was a time that the County's general revenue fund took care of our roads. We had good roads. Now, while we have state income taxes, county and state sales tax, and property taxes, it seems like the people who actually pay those taxes have been sent to the back of the line, with little of that revenue being spent on our well being.

The recent turn down by voters of the prop 13 bond proposal shows that we are sick and tired of new taxes. I strongly oppose any tax increase and demand that the Supervisors return looking out for the people who pay the taxes.

Our roads are terrible and they should be fixed out of the general budget.

Regards,
Richard Shoemaker
Orangevale

P.S. there have been 16 upper middle class couples in our social circle who have left California in the past two years. I am working on my wife very hard to add us to that list. Another tax increase should help me get her on board to move.

I do not support an increase in Sales Tax dedicated to transportation. Given the status of the economy and the unknown amount of time to resolve and the dramatic crash of my IRA investments, my retirement funds have disappeared. Living on the limited amount of Social Security will make it extremely difficult for me to survive.

The passage of SB1 created the largest tax increase of fuels in over 20 years. Managing the SB-1 tax revenue sources on top of the already existing taxes for transportation should be paramount as we move forward as we hopefully will recover economically from the COVID-9 virus disaster some day.

No, they have been stealing gas tax money for highways and bridges for ages, without properly repairing them and never repaying the funding dedicated for those purposes. Recover the tax dollars spent on every program that was originally budgeted for transportation first, and quit lying to the public.

Subject: MEASURE A 2020 TRANSPORTATION SALES TAXEXPENDITURE PLAN

EXTERNAL EMAIL: If unknown sender, do not click links/attachments.

I understand that Measure A includes a ½ cent sales tax increase. This is not the time to increase our Sales Tax. I don't like my Government coming to me for more money when the State just tacked on a 12¢ gas tax and hefty vehicle registration tax increase in 2017 and another 5.6¢ this July. We were promised that the increase was needed to fix our roads – well use those funds. I've reviewed Measure A and find it lacking in local street and road repair. Too much is allocated to mass transit. Also, you have a caveat in the Measure where the City and /or County may override the "Fix it First" principle. You say "not less than 90%" of the local street and roads funds in the first 5 years "shall be used exclusively by all cities and the County of Sacramento for "Fix It First"" but then allow Maintenance Managers to override that provision.

I prefer you allocate more funds to the local Street and Road "Fix It First" Commitment and remove the caveat that allows Maintenance Managers to override this commitment.

To whom it may concern:

My comment is very short.....no tax increases! None! Especially now, when there is so much uncertainty and people are losing income, it would be unconscionable to increase taxes.

I know I am not alone in feeling that we already don't get what we pay for from our tax burden, and this plan does not instill confidence that that would change. We pay a lot of sales tax in this county. We pay a lot of income tax in this state. We pay a lot of income tax in this country. Nearly everything we do and use and purchase is taxed. And yet our schools are underfunded, our public services are less available than in the past, our roads are grossly neglected, and so on.

When the voters rejected every request for additional government funding on election day two weeks ago, we were sending a clear message. We are taxed to the max and feel strongly opposed to paying more. Households, private sector businesses, and every other entity that has to fund itself has to make hard decisions about how to spend what comes in, and it's more than time for public entities to do the same.

To repeat, no tax increases! I respectfully ask that you respond to the circumstances and wishes of the day and agree.

Sincerely,
Lisa Greene

Subject: STA Public Comment Item 4

EXTERNAL EMAIL: If unknown sender, do not click links/attachments.

History has proven they ask for funds for a specific purpose. The funds get diverted to other area's in the general fund. This is a proven fact they cannot be trusted with what happens with the funds. When we see projects get non essential items. When the priority repairs and or maintenance is not getting done! Then they want to say insufficient funds. No we are not voting for any more of this nonsense. Non essential items in projects is waste of funds! Non essential upgrades need to be stopped. If not life threatening! Hazardous roads is a life threatening issue that get ignored when the road itself is falling apart. Not to mention the degrading materials wash into the storm drain system.

At this time this is in very poor decision making at best.
Not a priority with the current affairs!
Very Bad timing on your parts to say the least.
This is very troublesome that you can only see another money grab.

Sincerely Larry Nevills

Dear STA members,

I am against Measure A 2020. CA State has raised 'transportation' taxes over and over, spending the money for other expenditure. Even when the state spends a part of these 'transportation' fund on repairing roads, Los Angeles and Bay area are the main focus. It is necessary for Sacramento County to work with the state to get its roads repaired. In addition, 40% of the proposed fund is for public transit, which also should be funded by the state's fund we are and will continue to pay year after year. Moreover, raising sales tax (as opposed to gas or mileage-based tax) does not create an incentive for people to be mindful about unnecessary driving as that punishes those, who consciously plans and minimize driving trips.

I would like to urge you to vote against this measure.

Thank you for listening and for serving us, the residents!

I am a long-time Orangevale resident. In recent years we have seen neglect of maintenance for our residential streets in the area. There are Orangevale streets that would be considered in poor condition in even some of the third world countries I have traveled to.

Until we have regular Street Maintenance and Repair in our community I could not support tax increases where a large portion of the proceeds is planned to be used to fund other transportation programs.

Sincerely,
Kathleen Lopez

I oppose a tax increase. Under the current situation the loss of life, additional health care issues, businesses closing, people losing their jobs, and canceling of events, now is not the time to increase a tax. It's going to take a long time to recover, and those that have lost their business or employment position do not need that additional burden.

Respectively,

Rosa Umbach

Dear Clerk,

I am voicing my strong opposition to ANY additional tax increases! We still have the last sales tax increase on everything. Wasn't this supposed to be temporary? We have gas taxes, vehicle registration taxes and probably more that I dont even know about. Aren't these supposed to be for roads, bridges and public transportation? Where has all that money gone? I urge you to vote no on this duplicate tax.

Thank you,

Denise & Don Mello

Dear STA,

Do not vote yes approving placing this tax increase on the ballot this November.

Transportation departments in the state, county, and local levels have demonstrated a lack of accountability and transparency through numerous failed audits. More money is not going to solve the funding issue until these authorities are managed well. Otherwise, the new taxes will be wasted away in this broken system. For the sake of your careers, I strongly suggest not placing this on the ballot. If you do approve, the voter backlash will be swift and powerful.

Sincerely,
David Flory

Relative to the Sacramento Transportation Authority (STA) voting on a spending plan regarding a half cent sales tax increase in Sacramento County to fund transportation that if passed, could show up on the November ballot:

I know of no one in my community who is interested in any sales tax increase in Sacramento County to fund transportation.

This is especially true if any increase would be to fund public transit.
Public transit is of no benefit to anyone in my community.

We need our roads fixed all over Sacramento County, not more pampering and pandering off/to the city of Sacramento.

Still waiting for road repairs in Rio Linda. A number of them are beyond acceptable. I do like all the improvements outlined, however, nothing mentioned to help our community. We're the county dump site for trash and all these innocent animals. The new subdivisions coming in the panhandle that was ours will get their bells and whistles. Rio Linda ignored. I'm aware the sheriff and CHP have been doing a great job dealing with the crime here, but in all honesty, if you need immediate law enforcement assistance, your on your own. So many good people here trying to better our little rural community.

When will you hear us?

With everything going on. People lossing jobs, some will be behind on bills, rent and mortgage. Not the time. Plus until our county, state can be more responsible with spending they should not be given a penny more. I was tought as avery young child how to budget, save and how not to spend what I do not have. How to not waiste a penny. Maybe it is time the county and state learn the same. Every penny you take from my house hold is one cent more we will not have for our retirement. I n our house every penny counts.

Public transit in this county sucks because the people in power, like Supervisor Frost and influential developers will not support it. Developers want good roads so they can build at will and sell their product. The problem is when developers dig into our roads to tap into the infrastructure they leave shoddy patch work which deteriorates in short order. They take the money and run leaving us with over burdened potholed roads and increased miles of future road maintenance. The future of public transit should be decided by vote of the people and not the developers.

I don't believe we should be raising taxes at any time for repairs of roads or enhancement of public transportation.

You all have not been accountable for the monies that we've already raise taxes to pay for road repair (that has not happened) and enhancement of public transportation

I disagree with this tax increase and earmarking more money for repairing road and enhancement of public transportation as this should have already been done as previously promised.

Sacramento STA (Transportation Authority),

As a long-time resident o Sacramento County, California, I Heartily Disagree With ANY More Taxation by our California Governments, whether they be (Local, Regional, City, County, or State)!!!!

We all Know that we've been institutionally lied-to in a systematic way by what I'll just refer to as "Cal-Gov", as our Taxpayer money has been Routinely Stolen from being used where We Voted for our Valuable Money to be Properly Spent!!

Our "Gas Tax" monies are Stolen with No More Concern for We The People than some fifth-graders disagreeing during recess!! Repeatedly our "Gas Tax" monies are Stolen, then Re-Stolen, then Re-Stolen, yet again!!! And, Again, and, Again!!!

The Oroville Dam fiasco informed us that Huge Amounts of a Dam Maintenance Moneys, again, were Stolen, or, "Transferred" to "Other Uses" by yet more buildings full of Bureaucrats!!! But, Hey! "Cal-Gov" didn't give a S___ what happened to all of those Californians who were forced to flee from their homes by such Stunning Incompetence by agents of "Cal-Gov"!!! Spillway Badly Designed & Incompetently Built!!!! Luckily the feds could help the incompetent fools in "Cal-Gov" on this issue!!!

We Know that 100% of All California Reservoir Monies were Stolen by yet more "Cal-Gov" legislators/buildings full of well-dress bureaucrats!! This crime against The People has been going on for The Last 40 Years!!!! Our CA population has Doubled during that time, our "funded" water reservoirs Were Not Built, and, now, . . . The Money Is Gone!!!!!!!!!!!!

And, recently, we are Discovering that Vile, Corrupt, and Vicious elements within "Cal-Gov" have conjoined with corrupt elements within the "environmental" community to "Mandate" that well over Half of All of **OUR** California Water run "Uselessly To The Sea"!!!! This is Evidence of an Overt Hatred for our Hugely Proficient Great Central Valley Famers, Ranchers, Orchards, Vineyards, and, our other Historical Creators of Food, . . . enough Food to Feed Most of the USA!!!!!! Now these Heroic California Food Creators have only **15% of their allotted water**!!!! All of the rest of THEIR Earned, Paid-For, and Promised Water is (Mandated) to Wash Uselessly to The Sea!!!!!!!!!!!!!!!!!!!!

California seaside cites, also flush straight out human S___ into our seaside ocean water, also "washed Uselessly to the sea"!!

And, this, right when the same Well-Dressed Criminals in our "Cal-Gov" have made laws to Fine Us, (Fine our local "water districts"), if we use More than a Mere 50 Gallons of water a day, (INSIDE & OUTSIDE)!!!!!!!!!!!!!!!!!!!!

I've left out Much!!

Just who in the Heck do you all Think You Are???

Billions & Billions of our Wasted Dollars need to be Returned to We The People of California!! Not, . . . even More of our money Stolen, "Taxed"!!!!

Cut your salaries by one third! Cut your office space costs by one third! Cut your Holidays by one third! Work six days a week like So Many of the rest of us do!

There are Two Criminal Organizations which have created/profited from what little I've noted herein! One is the Jerry Brown Administration (which I was stupid enough to vote for). And, the other criminal organization is the Gavin Newsom Administration, (which is even More Criminal than the Brown Administration)!

Flotsom & Jetsom: We heard that at least 20% of these wannabe "Taxes" are slated to be for RT/Railroads!!!! Only about 1% to 5% of The People use these Uber-Expensive systems, meaning that they are Uber-WASTEFUL!!!!!!!

NO!!!! ABSOLUTELY NOT!!!!!!!!!!!!!! Who is slipping you folks thick envelopes full of \$1,000.00 bills???

Al Capone would be Very Inspired & Proud!!!

Most Sincerely,

Mike Giles

Munoz. Alma

Again we see a proposal that was represented (by some) as a means and method to improve our roads. This in addition to State taxes fees, and bonds passed representing the same thing with little or no progress.

This proposal also takes for granted that the citizens are more than happy to have their money pushed towards mass transit projects in an effort to take them out of their cars and put them into transportation tin cans. Make the citizens more reliant on the government in the disguise of an independent entity or project. The County and State need to make good on prior promises before attempting to reach their hands into the peoples pockets for another handout in an attempt to fix the same old problem. The county can take the state to court to get the financing it needs for the improvements promised in prior measures, taxes and vehicle fee increases. With all the previous promises, the roads leading into my area have not had significant maintenance in over

25 years. I recently took a trip to Arizona and New Mexico (who have transportation fees way lower than ours). During this trip, with substantial driving, I could not find one pothole or cracked roadway which has come to be normal on every road in California. Makes you wonder where all that money is going. A big NO on any vote for more transportation measures until the previous promises are kept.

Wasteful spending should not be the responsibility of the tax payer. We pay enough for the roads to be fixed. We are one of the most taxed states in the union. I'm 55 years old and pay dearly in taxes. I don't bust my ass and give up things in life to support a government who wants to take money that we where told would fix roads and have it end up taking care of lazy, poor, un-achievers who want to drink, do drugs and live an entitled life because of our liberal government who wants their vote. Use the money you have and learn to manage it on the way the tax payers were told it would be used. I pay the highest DMV fees and fuel taxes in the union. I will not pay more in taxes because of our soft hearted and incompetent government that say they need more money for roads when it WILL NOT be used for that.
FIX OUR GOVERNMENT AND THE MONEY FOR THE ROADS WILL APPEAR.

Please consider my 'no' position on any proposal that includes a tax increase (fee, assessment, tax rate, bond issuance, etc,) for the purpose of transportation improvements; in this case a half cent sales tax increase.

I still wait to be updated on all the road improvements allegedly made from CA gas tax increases in 2019 and before that in 2017. CA, including Sacramento County, has some of the highest gas taxes in the country, purportedly for road improvement. We don't need another local tax increase for this same purpose.

Thank you for your consideration in this matter, Laurene Chiesa

I do not want this new transportation tax, please fix our roads here in Orangevale- we always get forgotten and our roads have plentiful and huge potholes, no sidewalks which I'm sure increased disease like diabetes and heart disease because people don't feel safe walking here's please use our money wisely and come up with a plan that will help us instead of taxing us more!

Thank you- Anna

NO MORE TAXES!!!!!!!!!! California residents are being taxed to death!!
At this rate in the near future you will only have the homeless and rich to tax, because the rest of us will have moved out of state.

I am tired of paying for, subsidizing and supporting, able bodied welfare recipients, those who enter the country illegally. I am tired of paying for their electricity, subsidized housing, phones, etc.

I am on a fixed income, and all these taxes will make a lot of us homeless.

No I DO NOT SUPPORT a transportation sales tax. As far as I can see the last increase was mismanaged & nothing was improved. If you can guarantee the increased taxes will go specifically to the repair or improvements to our roads, highways & freeways & not line the pockets of "those" in charge, then maybe. I am sick & tired of paying increased taxes only to have them allocated into another fund instead of what it was intended for.

No!

I believe there are ample funds available to fix our streets, roads, and avenues and the real topic should be directing already available funds accordingly. We are among the highest taxed states and counties in the nation and our roads are in horrible condition. We do have problems but simply increasing taxes is not the correct answer. Making municipal employees accountable for time management, proper spending, etcetera is the answer. I work full time for the County of Sacramento and I witness first hand the waste and mismanagement. I am not directing these comments at anyone in particular, but state them in order to support them.

Thank you for making this pole available to the public!

As a resident of Sacramento County, we don't need another tax or fee. Where does it stop!!.. California and Sacramento County seem to feel that instead of tightening the belt of bloated budgets, pet projects, and catering to certain activists groups, its easier to just cry the world is falling, and we need more money. Please deal with the roads with money you have been given. California politicians have done a great job at scare tactics (911 wonanswer; the highway is going to collapse and fire response won't make it to you;etc) to pass the last statewide gas tax for the roads.

I understand it is California and that it is "the norm" in this state to slowly and incrementally raise taxes, because adding an extra dollar tax is easier to push upon taxpayers slowly at say 5 cent intervals instead of the whole dollar at one time, but there has to be an end!

I don't think any reasonable taxpayer would fault or have a problem paying a fair share of taxes for reasonable, and quality services and roads, but it seems like the automatic reaction is to ask the voters "for more taxes." When is enough! Where does it stop!

Please re-evaluate the automatic request for more taxes.

Thank you for your time in this request.

The citizens of California and Sacramento have passed similar ballot issues in the past. The result is the state and local governments have skimmed off funding for other projects.

We have identified the governments practices and won't support further road repair issues. Skimming off funds and diverting them to transit programs doesn't repair Sacramentos crumbling road infrastructure.

Regards,

Phillip Minard

As a business owner in Sacramento I can appreciate the effort to improve transportation in the region. What I am not in favor of is continued funding for public transportation when the current roadway infrastructure is in very poor condition. It is shameful as the Capitol of California that our roads are in such poor condition. Furthermore, it is also difficult to hear transportation leaders speak at a multi-chamber of commerce event at the Railroad museum over a year ago state that there are no plans to expand public highways and that we need to focus only on public transportation. This individual also stated that if we build or expand more roads more traffic will occur. That's the whole point. We already have grid lock so rather than having gridlock that takes 90 minutes why not work to bring that down to 30 minutes with expanded roadways.

Something needs to be done however, the answer is not in public transport. Certainly not at 40% of the budget.

The 60-40 distribution of funds, roads-transit, is unacceptable. Far more must be allocated to our roads. It's our roads that are heavily used, and they need fixing. Transit only handles a small portion of the population, and a very small portion in the Citrus Heights and north area, which has generally been ignored. There is no light rail to the north area, although originally promised, and bus service is poor. Far more must be allocated to roads, if there is to be any support in our area for a new sales tax. I would point out that the last tax increase attempt failed for just this reason, and would again.

The new proposed sales tax is absolutely unacceptable for multiple reasons. Sacramento sales tax was already increased by one half percent just last year in 2019, so it is too soon for an additional hike. Our state government needs to be more prudent with the existing tax revenue being collected. Third, while road maintenance is needed, the state already successfully passed a car registration tax last year that was supposedly intended for road maintenance. Also, I thoroughly disagree with the plan to spend at least 40% of this proposed tax on public transit. Our public transit system is too much of a drain as it is; inefficient, inconvenient, excessively overpriced and therefore underutilized. Additional tax hikes at this time are inappropriate, especially for a service we have already been recently taxed on.

Thank you for your time.
Sincerely,
Rachel Meder

Wake up!!! We need public transportation...the longer we wait to institute and install, the more it will cost. And we want and need GOOD, well-designed transportation options...have you taken a look at the freeways lately? And the roads...let's not build more roads..."you build them and they will come".

I vote yes...this is a logical and rational repository for tax money, and since we are the beneficiaries (both in the local arena, and in the global/future one) I find no pain in paying increased taxes. I am grateful to our body of citizens for fire and police protection, for street maintenance and lighting, for hospitals and parks, etc...that's what taxes are FOR.

Thanks for giving me the chance to have a bit of input,

Arlene Downing-Yaconelli

I oppose the half-cent sales tax for transportation. Gas taxes and vehicle registration fees were just raised in California, with much of that money already diverted for pet projects. We already pay some of the highest taxes in the nation, and it makes no sense at all to increase them, especially to direct 40% for public transit, that is used by about two percent of the population.

We already pay the State of California 47.3 cents per gallon on top of the 18.4 cents per gallon federal tax causing California's gas to have the highest price in the nation. It makes little to no sense that the Sacramento Transportation Authority would expect Sacramentans to pay a half cent sales tax increase when we were promised the recent state gas tax increase would go to California's infrastructure. These funds should be coming from The California Department of Tax and Fee Administration who manage our gas taxes. As well this proposal directs nearly 40% to public transit and not our roads which are some of the worst in the nation. I as well as many I know will not vote for this increase even if it does make it to the November ballot.

Thank you for your consideration.
Sincerely,
Tim O'Connell

While our roads are falling apart you want to devote 40% of new money to mass transit that is near impossible for people to use! This may feel good to the board but is a foolish waste of money needed to stop the roads deterioration. Your investment in roads is on a bad downhill slide that, if not halted, the County will never be able to recover from. With 45 years in the pavement maintenance business I've watched the County go from one of the best maintained road inventories in the state to a sadly deteriorating one.

I'm not in favor of increasing taxes but I'm totally against wasting more money on mass transit. As our roads crumble we need to be focusing on stopping the deterioration while preserving the roads that are still good.

I am writing in regards to the Sacramento Transportation Authority (STA) plan to vote on a spending plan regarding a half cent sales tax increase in Sacramento County to fund transportation.

Tax increases to fund transportation have already been passed in 2004 and 2018. And yet here we are again being asked for even more taxes. The kicker, 40% of it goes to public transit.

As a public servant you have a responsibility to the public to spend our money responsibly. And that is not happening. If you are going to tax me for the purpose of fixing roads. Then spend every penny on that purpose. No sidewalks, light rail stations, etc.

These dishonest tax increases have to stop. The good hard working people of this state are already burdened with too high of taxes. We can bear no more, we need tax decreases not increases. No more new taxes! If you are expecting us to sacrifice and pay more taxes, why not instead reduce spending and put that money here. Or at the least include that in the planning of your tax proposal. Government will never have enough money to serve all of the public. Choose and spend wisely.

Thank you

Mark Swart

I would NOT like yet another DECEPTIVE gas tax to fund special interests: free busses for minors to the mall, ads for sexual enhancement devices on the backs of public transit busses, ect. California voters allowed one gas tax to "fix the roads" and at least in my town (Orangevale) the major roads, Greenback Lane, Hazel Ave and Madison Ave continue to have potholes so big that it is unsafe to drive the posted speed limits. I would like the roads FIXED and that is all.

You already have the renewed Measure A Running another 18 Years at half % sales tax and now another half % would bring The total in my part of the county to .0875 Per \$1. The state already has hit every yearly DMV renewal with a graduated TIF costing my family \$475 for two cars last year for driving less than 25 miles a day on two cars. Time for you to ask Newsome for a share of the TIF to fix the potholes on Sunrise Blvd. and can the loser bullet train at \$77 billion and counting. This is from A retired high school on a fixed income. A definite no vote from me.

We are strongly opposed to an increase in our sales tax. This is primarily due to the fact that government can not be trusted to spend it efficiently, or even on what it was slated for. Trusting the government with more money is a fool's game. First they should demonstrate that they are trustworthy. To increase taxes for roads, then divert 40% of it for rail and public transit is just dishonest. There is already plenty of money for transportation projects if it were managed properly. We urge a NO vote on measure A.

I do not want Measure A 2020. The tax payers continually approve new taxes for road repair and non of that money ends up going to fix the roads. California has an extremely high tax on fuel that should be going to fix roads. The fuel tax for roads automatically increases without voter approval. Still that money gets siphoned off and does not go to the roads.

NO MORE TAXES!

Hi,

I am extremely concerned that you are thinking about raising our sales tax. We already pay way too much in taxes. I don't understand. Families who do not have enough money to pay for their expenses can't just go get a pay raise. That same principal works here as well. You need to spend your money wisely, you can't keep coming back to the taxpayers to give you more money because you didn't plan for the future. We are taxed to death, between sales tax, payroll tax, A TON of gas taxes, plus our car registration is crazy expensive.

Also, with health care cost are so high for everyone, and the gas taxes have increased food cost and everything else we purchase, how do you think the Sacramento people can afford more taxes?

If you care for the Sacramento people, you will not do this to them.

My comments are related to the "Off the Top", items as described in section B of Attachment #4.

Each of the related items are more appropriately described as ear marks or extraneous proposals that have little of no value in the mediation and completion of much needed transportation projects for Sacramento County or most cities in the region. As such these five "First Before All Other" proposals will serve as the catalyst for rejection of this Expenditure Plan.

1. The American River Park Way, while an important recreation project, serves less than 2% of the population and even less of those who travel daily for work, school or governmental needs. While supported by a vocal minority and the special interest of one or two political districts, the parkway should not be a partner or consideration to this Plan. This program has no vital relationship to local our regional transportation. I recommend removal this proposed recipient for all consideration.

2. This proposal is a City of Sacramento only issue. As such the citizens of no other jurisdiction within the County will receive direct transportation benefit. If this is an important issue to the City of Sacramento then they should consider their own tax proposal exclusive of the jurisdiction of STA and remaining cities and county.

3. No issue.

4. The San Joaquin Regional Rail Commission- Altamont Corridor Express service, is a duplication or parallel model of our current service to the Bay Area and, at this time nor in the foreseeable future, has any value to local transportation needs. Once again a small vocal minority special interest group is attempting to burden the entirety of Sacramento country and the various cities with unrealistic transportation schemes that have no value or offer solutions to the desastorous conditions of our roadways and commuter issues within the county. This proposal should be removed from the Expenditure Plan. If in the future the STA sees this as a need then separate approval should be sought from voters.

5. No issue with funding. The total amount should be limited to \$25 million.

As Noted above, three of the five proposed items are strictly special interest proposals that have no direct benefit to the transportation needs of the cities or the county and specifically managed by STA. While this entire proposal minus the above listed items, is not the ultimate solution to our transportation needs, I believe what I have proposed will garner less resistance from the voters.

Albert J. Fox
Former Member STA
Resident of Citrus Heights.

Dear Board,

As a concerned citizen on the condition of our existing roads not being fixed, I oppose the STA spending plan and half cent sales tax increase in Sacramento County proposed for the November ballot.

Despite the half-cent sales tax increase in 2004 (continuing for two more decades) and the gas tax increase (SB1) imposed by the Legislature, our existing roads are still not fixed. There appears to be no accountability for how these funds are used and are siphoned off for other purposes--confusing bike lanes, pedestrian crosswalks, trollies, RT.

Nearly 40% of this proposal is directed to public transit, RT buses and light rail, while about 1% travel that way. Even the buses have to use our crumbling, pothole-filled roads. Just two examples are Sunrise Blvd. and Madison Avenue. Meanwhile, most Sacramento county residents drive the 5,200 miles of roads to get to work, school, shopping, errands, meals, sports, entertainment, etc. Even to get to the light rail station, which I pointed out was inefficient when it came to our area, but nothing was ever done there either as promised. And as we are in the midst of the Corona virus (COVID-19), there are real concerns for packing people in buses and rail systems with the spread of this virus and sanitation/safety concerns.

Therefore, I think we need real transparency and accounting for where the previous and existing funding has been used before we grant more. This neglect and deferred maintenance of our existing roads has gone on for a long time. Instead of broken promises, we need prioritized action of road repair and real public oversight.

Thank you for your consideration,

Jan S. Lant
Gold River Resident

I cannot support any new taxes at this point. The last gas tax and vehicle registration increase was supposed to go exclusively for road repairs. The television ads stated that the money could "only be spent on road repairs".

I live off of Snowberry Way in Sacramento County. I've lived her for exactly 35 years. In those 35 years, Sacramento County has never performed a slurry seal on Snowberry Way inside Rollingwood Bluffs.

Instead, the residents of our HOA have paid for 3 slurry seals to keep the road passable. The road is once again in very poor condition, however our HOA has decided we should no longer be burdened paying taxes as well as paying for the upkeep of a county road. We have no choice on paying gas taxes and increased vehicle registrations, but we are taking a stand on fixing a road that the county hasn't.

In regards to this subject I believe public transportation is indeed important. However, I personally see this additional tax would be wrong to apply nearly half of it to public transportation. First, we have no public transportation in our area of the county. I believe the people in this area are paying more than their share fair when that fact alone is enough to justify a negative vote. In addition, we all know the unsatisfactory condition of our roads. To the public it appears that every time we approve a tax to fix the roads it appears the money is diverted elsewhere, and our roads continue to deteriorate.

Respectfully submitted,

I oppose another tax hike, ostensibly to provide funds to fix our County roads. I believe the county has funds available to fix our roads. I believe any shortage of funds results from the County administrators and the STA mis-directing the funds that are available.

I do not support the proposed tax increase. After the bait & switch on the gas tax, many people are reluctant to vote for any increase in taxes! In addition, we are in the top five for highest taxed states in the US.

Time to get creative and figure out how to do things with the money you collect from the taxpayers that are left in this state!

I am not for the increase in sales tax. Currently in Florida on vacation and gas here is less than \$2.00. The extra \$1.00 we are paying in California to help fix our roads is not happening. Our roads in CA are the worst I ever seen and here in Florida the roads are great with the exception of I4 which has been under construction for the last 5 years that I am aware.

Thanks

We definitely need our roads to be repaired. However, based on past increases "for road repair" we cannot trust the government to use the funds as they indicate they will. There are always loop holes in the bills and they plan that and use the funds for other things. So, no, I am not in favor or another tax.

To those on the Sacramento Transportation Authority that will be voting on the spending plan associated with the half cent sales tax I want my voice heard that I do not want/agree with another tax increase. Squeeze the other programs that have already been approved. Find the money from other programs that aren't using the money appropriately. Taxpayers are fed up and tired of being tricked into mismanaged taxes.

Do not adopt a sales tax increase for roads, we have repeatedly sent more money to the government for road repair and funding and it's apparently not being used as promised. Audit what has already been allocated and figure out what's going on with the money already going to transportation. I will not support it. It's despicable that you are voting for something as controversial as this during a crisis. Are you counting on everyone being distracted so you can slip this onto the ballot? Sneaky and slimy, that's what this is.

If you pass this sales tax, put it toward fixing the roads, not public transit. Gas taxes have been increased twice in the guise of fixing roads, and we all know that hadn't happened. Drive Watt Avenue, then tell me public transportation needs more money. I see empty buses, but I average 2 wheel alignments per year due to potholes. Fix the damn roads!

Do not raise my taxes. Use the money from the previous tax increases that were promised to fix our roads. We already have the highest gas tax in the nation, which was supposed to go to repairing the roads. Stop promising to fix the roads in an effort to get more money. You can only do that so often before we see through your scam. It's obvious our roads aren't going to be fixed regardless of how many times you raise our taxes.

Good morning,

I am a resident of Fair Oaks and have lived in Sacramento County most of my life. I have seen Carmichael go from being a prosperous place in the 80s and 90s to a drug infested strip with empty businesses everywhere. Instead of lowering taxes and incentivizing businesses to come to unincorporated Sacramento County, the state and local governments have repeatedly increased regulation and taxes to make it very hard for any business besides a Goodwill, check cashing store or liquor store to survive. Once again, we meet to discuss raising sales tax when no one wants to shop in Sacramento County anyway. This is a terrible idea. These liberal policies have destroyed our once beautiful county with no end in site. Please consider lowering taxes for once instead of discussing raising them in the midst of a public health crisis further worsened by the homeless population the liberals caused by raising taxes, increasing regulation, and making the police powerless to stop it through making drugs so powerful that people break into our homes and cars to get them misdemeanors to possess.

Respectfully Submitted,

Michael McCoy

I realize that Sacramento County receives hardly any of the "gas tax & registration" money that the State is stealing from hard working people, but my husband and I are absolutely against a sales tax increase. How about you hold our legislators accountable for the money they diverted to other projects. How about you audit where money has been misspent. I don't know what the answer is but I am sick and tired of my tax dollars being misspent, diverted and stolen. Enough is enough already.

Sincerely,

Shawn & Gina Brady

I understand the current proposal is that 40% of the proposed November tax increase go to Public Transit. I think the portion of any tax increase for public transit should reflect the percentage of the population that actually utilizes the service, and 40% is way too high. In our area RT took out several bus stops and we seldom see any busses. Far more people drive private cars than use public transit.

No tax increases. We already have the highest taxes in the country. Stop the Bullet Train project for good and deploy those funds and the gas tax hiked revenue to fixing our infrastructure. The savings from seriously halting illegal immigration would save billions as well. 75% of Californians do not favor sanctuary state and city status. Thank you.

Subject: Transportation tax

EXTERNAL EMAIL: If unknown sender, do not click links/attachments.

I'm writing regarding the spending plan regarding a half cent sales tax increase in Sacramento County to fund transportation that the Sacramento Transportation Authority will be discussing on March 18, 2020.

I agree that the existing roads in Sacramento County are in very poor shape and are in dire need of resurfacing. I fully support a tax that would resurface existing roads. I also would support funding to extended the Metrorail out to the airport.

What I don't support is funding for the Southeast expressway and other projects that were presented in the initial proposal that are gifts to developers that have options on land adjacent to the expressway. I also don't support paying for overpasses that should have been funded by developers in Folsom and Elk Grove as part of approval for the massive housing projects that they built.

I feel like the developers are holding the residents of Sacramento County hostage until they get funding for the projects that they desire when the residents of the county just want their roads repaved so they are not dodging potholes continuously.

I voted for the road improvement sales tax that still in effect. I won't support another sales tax on top of that existing sales tax so that developers can profit billions of dollars and make our county more congested.

The only sales tax I will support is one that repaves our existing roads and extends Metrorail to the airport. Anything else I will not support.

The developers made this traffic mess, let them use some of their profit margin to fix it.

Sincerely,

Stacie Sherman

I'm opposed to any sales tax increase for transportation that 40 % of the revenue is going to public transit. Public transit is currently being used by approximately 1 % of the population where as 95 % or more of the public rely upon our roads to get around this county. Our roads in Sacramento county are deplorable and getting worse every day. We have been taxed over and over for transportation and the resources continue to be wasted on public transit projects and not on the primary form of transportation in this state.

I am registering my "no" vote against increasing the Sacramento County sales tax by half a cent UNLESS the total amount collected goes toward fixing our roads. We no longer trust our elected officials to do what is best for us, and our commutes and cars are suffering and we are putting other drivers in danger because we are trying to dodge potholes because of previous promises by state and local officials that have not been kept. Soooo....if you can clearly rewrite your proposal to only deal with our current urgent need to fix our roads the way they should be fixed, then I will fully support another half cent increase.

FYI- I am retired and I have been watching how systems work for a long time. Each time people vote for a tax increase for roads or transportation the money is used for other items. I will no longer vote for any road tax because of the misuse of funds. And now this increase is once again trying to "fool" voters into thinking another sales tax increase will fix roads. No, I will no vote for it.

And now when no one is sure if they are going to have any money, this measure should definitely be tabled and not voted on for some time. I am sure there are deadlines to having this put on the November ballot so I recommend looking further in the future and possibly considering putting in on the March 2021 ballot or November 2021 instead.

To whom it may concern,

In light of all that has transpired in the previous week and that will surely unfold in the following weeks to come with the COVID-19 closures; there is no way any responsible person could proceed with a tax increase at this time. It is time for all parties to tighten the belt and be in survival mode. Our business has decreased by 60-70% already and we expect that to continue for weeks and months to come. The citizens expect you to act in a fair and reasonable manner that represents their interests. NO ONE is increasing spending right now in their personal or professional lives and we expect the same of our leaders. Please seriously consider the impacts of increasing any taxes or fees at this time for the people of this state who are already suffering.

Thank you,

Sam Johnson

As a citizen of Sacramento County I would like to voice my opposition to any new proposed taxes or fees to support transportation. Sacramento County residents are already being taxed 76.7 cents per gallon in state and federal taxes on gasoline which is supposed to be maintaining and improving our state and Local roads and infrastructure. And even with some of the highest fuel taxes in the nation the current roads throughout Sacramento County are in horrible disrepair. In my opinion the State of California should investigate and publish a report showing where every fuel tax dollar has been spent for the last 20 years in California?

Until that time there is no justified reason for me to support any type of increased taxes or fees in Sacramento County for transportation! There's a reason why there is a study flow of people leaving the state of California, and your proposed sales tax increase is just one more reason to consider leaving. Good Ridden!!! Enough is Enough!!!

Sincerely,

Mr. Russell Powell

Hola participo para decirles que nos gustaria tener mas calles o sea nueva pavimentacion ya tiene muchos años que se promete componer y pavimentar las calles con lo que avia subido la gasolina pero no se cuando llegara aver un cambio total si cada vez que vienen a tapar un hoyo en nuestras calles la lluvia viene y lo hace mas grande Hemos visto muy pocos cambios .

seguridad de los estudiantes alrededor de las escuelas

Sobre los taxes no tiene caso que se suban los taxes pues para nosotros los pobres seria pagar mas en nuestras nesidades diarias y el salario que se recibe es muy poco

Por que no mejor ayudar alas familias y se quitaran los taxes como en otros estados como Alaska , Montana Oregon Y otros Seria la mejor solucion

A 40 year plan is to much of a burden to place upon our grand and great grand children. The road proposal should be to get done what you can in no more than 5-10 years and other transportation changes to a maximum of 20 years. To many things change in 40 years that financially strapping future generations to our vision of transportation is poor planning.

Sincerely,

Tim Jackson

I think road repairs/improvements and public transportation enhancements in Sacramento County are much needed. However, I think several things have to be weighed at this time. Is an imploding economy the best time to take this on? So many other more urgent services need those funds right now with people not being able to work as usual and businesses closing. Although road repairs would certainly be easier with fewer cars on the roads, I don't think enough new jobs would be generated to make this the optimum time to go ahead with this.

Thank you for your consideration of my comments.

Considering that the voters recently passed a proposition to increase gas tax for road repair and a few months later the governor diverted the tax revenue, I've a difficult time supporting a new tax. I suggest the local governments work to regain the hijacked tax revenue and return it to road repair.

Most kind regards,
Steve Wright

We should not penalize all shoppers with a sales tax increase that only benefits those who drive. Further more, new roads and enhancements to existing roads that encourage expanded development, should be paid by developers. Major new roads or expansion of existing roads, such as the Grant Line Bypass should be proposed as a TOLL ROAD, so those commercial users and drivers who choose to pay, can have this luxury. In major cities such as Chicago, where the Tri State bypass continues to add to state coffers, toll roads have proved popular and effective.

Sacramento STA (Transportation Authority),

As a long-time resident o Sacramento County, California, I Heartily Disagree With ANY More Taxation by our California Governments, whether they be (Local, Regional, City, County, or State)!!!!

We all Know that we've been institutionally lied-to in a systematic way by what I'll just refer to as "Cal-Gov", as our Taxpayer money has been Routinely Stolen from being used where We Voted for our Valuable Money to be Properly Spent!!

Our "Gas Tax" monies are Stolen with No More Concern for We The People than some fifth-graders disagreeing during recess!! Repeatedly, Repeatedly, our "Gas Tax" monies are Stolen, then Re-Stolen, then Re-Stolen, yet again!!! And, Again, and, Again!!!

The Oroville Dam fiasco informed us that Huge Amounts of a Dam Maintenance Moneys, again, were Stolen, or, "Transferred" to "Other Uses" by yet more buildings full of Bureaucrats!!! But, Hey! "Cal-Gov" didn't give a S___ what happened to all of those Californians who were forced to flee from their homes by such Stunning Incompetence by agents of "Cal-Gov"!!! Spillway Badly Designed & Incompetently Built!!!! Luckily the feds could help the incompetent fools in "Cal-Gov" on this issue!!!

We Know that 100% of All California Reservoir Monies were Stolen by yet more "Cal-Gov" legislators/buildings full of well-dressed bureaucrats!! This crime against The People has been going on for The Last 40 Years!!!! Our CA population has Doubled during that time; Our "already-funded" water reservoirs Were Not Built; . . . and, now, . . . The Money Is Gone!!!!!!!!!!!!

And, recently, we are Discovering that Vile, Corrupt, and Vicious elements within "Cal-Gov" have conjoined with corrupt elements within the "environmental" community to "Mandate" that well over Half of All of **OUR** California Water runs "Uselessly To The Sea"!!!! This is Evidence of an Overt Hatred inside our "Cal-Gov" for our Hugely Proficient Great Central Valley Famers, Ranchers, Orchards, Vineyards, and, our other Historical Creators of Food, . . . enough Food to Feed Most of the USA!!!!!!!! Now these Heroic California Food Creators have only **15% of their allotted water**!!!! All of the rest of THEIR Earned, Paid-For, and Promised Water, is (Mandated) to "Wash Uselessly to The Sea"!!!!!!!!!!!!

California seaside cites, also flush straight out human S___ into our seaside ocean water, also "Washed Uselessly to the sea"!!

And, this, right when the same Well-Dressed Criminals in our "Cal-Gov" have "Quietly" made laws to Fine Us, (Fine our local "water districts"), if we use More than a Mere 50 Gallons of water a day, (INSIDE & OUTSIDE)!!!!!!!!!!!!!!!!!!!!

I've left out Very Much!!

Just who in the Heck do you all Think You Are???

Billions & Billions of our Wasted Dollars need to be Returned to We The People of California!! Not, . . . even More of our money Stolen, "Taxed"!!!!

Cut your salaries by one third! Cut your office space costs by one third! Cut your Holidays by one third! Work six days a week like So Many of the rest of us do!

There are Two Criminal Organizations which have created/profited from what little I've noted herein!

One: The Jerry Brown Administration (which I was stupid enough to vote for).

And, # Two: The other criminal organization is the Gavin Newsom Administration, (which is even More Criminal than the Brown Administration)!

Flotsom & Jetsom: We heard that almost 40% of these wannabe "Taxes" are slated to be for RT/Railroads!!!! Only about 1% to 5% of The People use these Uber-Expensive systems, meaning that these "decisions" are Uber-WASTEFUL!!!!!!!

NO!!!! ABSOLUTELY NOT!!!!!!!!!!!!!! Who is slipping you folks thick envelopes full of \$1,000.00 bills???

Al Capone would be Very Inspired & Proud!!!

Most Sincerely,

Mike Giles

Just fix the roads.....spend the enormous gas tax and the other taxes as most citizens want them spent.....we vote on these proposals only to find out the roads and infrastructure are still in terrible shape with funds being used to create more unusable public transit systems.....the boondoggle high speed rail to nowhere is a great example. Local rapid transit is not convenient or safe. NO MORE SPECIAL TRANSIT TAXES! Do what taxpayers have to do.....live on a budget and "shop wisely."

Dear STA, I'm against this sales tax increase proposal. We already pay one of the highest, if not the highest, gas taxes and vehicle license fees and the roads are still in horrible condition. A lot of tax money is being collected and, apparently, its not being used for what it is intended for and now you want to add to it! No thanks! Less money on a high speed rail system that will carry 1% of travelers and use it for fixing the roads and other transportation purposes. Proper use of the funds already being collected should negate another tax increase. You folks need to put the screws to the powers to be to help make this happen. - Pete Araldi

PS: If there is not already a priority for fixing the roads in Sacramento County, there needs to be one. For example, Madison Ave is 3 lanes and they are all in poor shape. Why can't at least one lane be repaved so that people can choose to use it even if it turns into a slower lane because of more cars using it. At least it may save people from having a \$1000 repair bill for damage to their car's front end suspension because of chuck holes like I had to pay recently . Likewise, there some places on San Juan Ave and Kenneth Ave that are so rough that it feels like you are riding over railroad ties because of holes and re-patches over re-patches.

Please do not increase any sales taxes to fund rapid transit. We taxpayers pay too much in taxes in CA. already. We have passed numerous tax increases for roads and transportation over the years which have been redirected or poorly managed. Our roads were never improved. Stop increasing taxes and manage what you have more efficiently and on roads not rapid transit. Thank you

I am opposed to raising taxes to fund public transportation when the increased taxes we are paying to fix roads have not resulted in any significant improvement. I urge you to vote no on the proposed tax increase

I can't help to ask why another tax needs to be levied for road maintenance. I have been in Sacramento for 30+ yrs. During this time road conditions are some of the worst I've experienced compared to other communities in CA and other states.

Why would I think things will improve if more money is thrown at it? Regarding the public transportation issue, my feelings are similar to above.

I can't justify increasing the sales tax.

Sincerely,

Jack
