

White Rock Road Safety and Congestion Relief Project

Local Partnership Program 2022 - City of Rancho Cordova

White Rock Road – Project Location

- Parallels US 50
- Adjacent projects
- Connects to 2nd largest job center with over 70,000 jobs
- Growing communities to east
- 19,000 proposed homes in Rio Del Oro and Westborough
- Includes affordable housing, commercial and industrial

White Rock Road – Existing Conditions

- Two-lane road with no shoulders
- Blind curves. No opportunities for bike or pedestrian mobility
- Crumbling road surface creates a dangerous and costly expense to drivers
- Accidents
- Inadequate infrastructure increases demand on US 50: More congestion, greenhouse gas and delays. Reduces quality of life for citizens
- Impediment to job/housing balance
- Separates communities

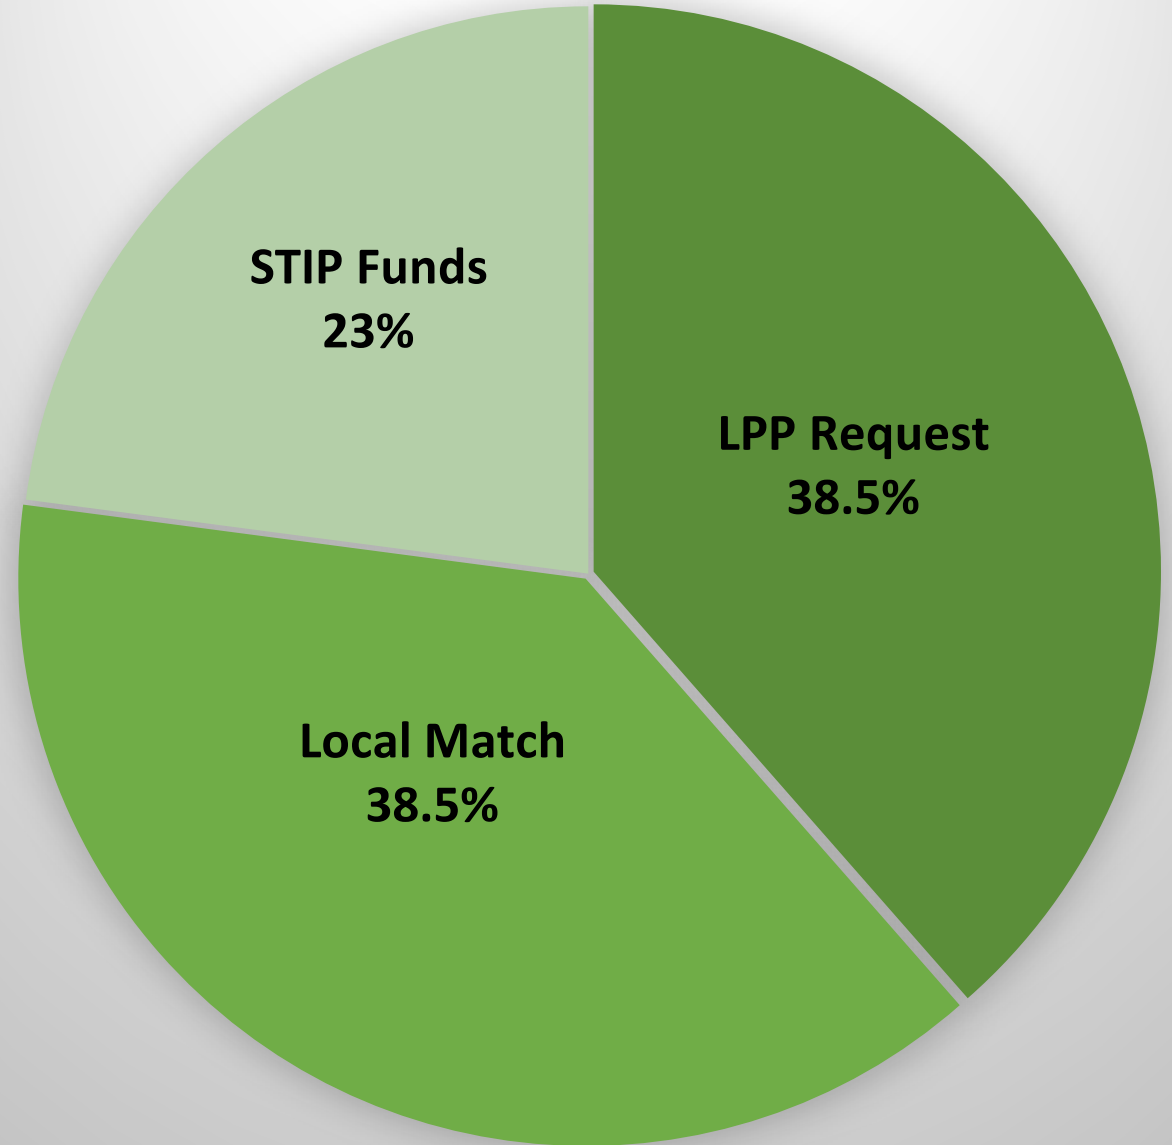

White Rock Road – Proposed Improvements

- Four-lanes
- Class II bicycle lanes
- Raised median
- Drainage improvements
- Fiberoptic connection to the City's traffic management center

Funding Request

- Total project cost = \$24 M
- LPP request = \$9.25 M Million
- Local Match: \$9.25 M
- STIP Funds: \$5.5 M

Project Status and Community Benefits

- NEPA is complete
- CEQA is complete
- 100% design complete: Ready to go to construction 2023
- Improve safety and state of good repair
- Regional partnership with public and private stakeholders
- Parallel capacity for US 50. Critical part of Caltrans statewide Integrated Corridor Management Strategy
- Alleviates regional congestion and reduces greenhouse gases
- Natural extension of previous and current improvements to east. This project provides immediate utility
- Connect communities to 70,000 jobs and promote economic development
- Improve job/housing balance, economic development and quality of life in the region
